

SK-B-021-100 Specification

The wiring diagram of the handwheel					
		the color of the line	signal	instruction	
Pulse generator (MBL)	+ . - .	-A	red	+5V	According to the system requirements Such as:mitsubishi 12v plc24v
		-B	black	0V	
	B . A .		green	A	
			white	B	
			purple	-A	
			purple and black	-B	The output end of the long - line drive
the selector switch of the shaft		yellow	x	The choice of axes	
		yellow and black	y		
		brown	z		
		brown and black	4	Supports the use of 12 axes	
		pink	5		
Multiplier selection switch		pink and black	6	The choice of magnification	
		gray	x1		
		gray and black	x10		
		orange	x100		
indicator light(red)		orange and black	com	Common point (DC5V-24V)	
		green and black	LED+	(-)	
the abrupt stop switch		white and black	LED-		
		blue	C	The abrupt	
		blue and black	CN	Stop switch	
		fiber	Double layer shielding
